Timothy Soar

The Yellow Building is the 15,000m<sup>2</sup> landmark headquarters for fashion company Monsoon Accessorise. In addition to offices and design studios, this new seven-level atrium building can accommodate several full-size mock-ups of the Monsoon shops. Intended to read as a creative powerhouse, the building has a dramatic top-lit atrium with a great open staircase running from top to bottom.

The Yellow Building is part of the development of a series of commercial buildings and additional uses on a large site, Notting Dale Village, on the edge of Notting Hill, close to the new White City Shopping Centre.
